

## Q. 7.1.6

**Quality audits on environment and energy regularly undertaken by the Institution and any awards received for such green campus initiatives:**

- Green audit
- Energy audit
- Environment audit
- Clean and green campus recognitions / awards
- Beyond the campus environmental promotion activities

Sub: **Completion of Energy, Green and Environment Audit at your premises.**

This is to state that we have completed the Energy, Green and Environment Audit at your premises and submitted the Energy Audit Report SCPL-PR-727-231220 dated December 23,2020 & Green and Environment Audit report SCPL-PR-727-231220 dated December 23,2020.

The organization is very keen to optimize energy cost & promote green culture wherever possible as a commitment towards better environment and conservation of energy. A lot of efforts have already been put up to bring down the carbon footprint & energy consumption.

The study has been completed generally as per the purchase order.

Thanking you.

Yours faithfully,

Criteria 7.1.6

**POLICY DOCUMENT**

**ON**

**ENVIRONMENT**

**&**

**ENERGY USAGE**

## Environment and energy usage:

- Policy of South Indian Children Education Society is to increase the use of solar energy. The energy crisis is the most important crisis in front of humans.
- The institute aims to use less power consuming equipment
- The light sources should be replaced by energy efficient energy sources like LED.
- The switch of each electric device should be separate so that only required equipment can be utilized and hence unwanted equipment are turned off.
- The institution aims to sensitize the society regarding the usage of electricity
- The staff / students are advised to turn ON only the required equipment.
- The staff / students are promoted to participate in environmental promotion activities.
- Staff and students are encouraged to participate in public transport related programmes organized by the college.

➤ Institute also aims to install proper waste management system

➤ The use of green compost is encouraged via construction of green compost pit

➤ The institute aims to reuse and recycle the rain water in college campus

➤ The e-waste collection drives will be promoted in institute

➤ The CO<sub>2</sub> generation should be minimized

➤ To minimize use of plastic

**These policy will be addressed to the staff/student.**

**The necessary points can be reviewed periodically.**

Green and Environment Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

# I Introduction

Green & Environment Audit was undertaken at SICES Degree College of Arts, Science & Commerce, Jambhul Phata, Ambernath West, Thane 421 505, during the month of December 2020.

The organization is very keen to promote green culture wherever possible, as a commitment towards better environment and conservation of energy. A lot of efforts have already been put up to bring down the carbon footprint. To further optimize consumption and identify saving opportunities, M/s Senergy Consultants was assigned to carry out Green & Environment Audit of the premises.

This Audit Report presents the analysis of the data collected, observations made at the facility and is governed by the objectives, scope of work, methodology etc. discussed in the ensuing paragraphs.

## Team:

The team members of the audit study.

- Mr. Ravindra Datar
- Mr. Nitesh Kharche

## Acknowledgment:

We wish to express our gratitude towards Dr Harshal Bachhav for having given us the opportunity for conducting the study and the support provided during the study.

We are also thankful to Dr Shrikant Chavan for extending the necessary help and co-operation from their side.

Green and Environment Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

## II Executive Summary

The premises were evaluated against the various criteria laid down by the National Assessment and Accreditation Council (NAAC).

The major observations are

1. Air Quality & Ventilation
  - a. The air ventilation is adequate.
  - b. Several indoor and outdoor plants have been installed to improve air quality.
  
2. Water Quality & Conservation
  - a. The water supplied by the Municipal Corporation is used for drinking after purification; which is a common practice in and around Mumbai & Navi Mumbai.
  - b. A borewell water is used for other applications like toilets flushing, washing of utensils, etc.
  - c. Water purifiers are provided at convenient locations.
  - d. The various water conservation measures are initiated, and the water consumption is generally within the norms.
  
3. Waste Management
  - a. The generation of waste is minimized through use of electronic communication and effective waste management system.
  - b. The waste water is disposed of through common drainage system, which is usual practice in and around Mumbai.
  - c. The organic waste converted in to manure in a composting pit, which is used for inhouse plants.
  
4. Infrastructure usage
  - a. The on-campus movement is distributed with multiple entrances as well as staircases.
  - b. There is adequate parking space for vehicles/four wheelers. However, almost all the students and many of the faculty members avail public transport system which is very convenient due to proximity to railway station and bus services.
  - c. There are adequate fire extinguishers located at key areas. The college has initiated appropriate measures to meet the safety requirement.

Green and Environment Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

- d. The draining system for washrooms is efficient and effective.
- e. No seepages were observed in the building premises.

5. Green IT culture

- a. Energy efficient computers and laptops have been procured.
- b. In most of the cases, the computers are switched off, when not in use.
- c. Electronic communication is encouraged to minimize usage of papers.
- d. Most of the papers are reused for doubled sided printing.

## V Water Management

### Consumption Pattern:

The water supplied by the municipal corporation is used only for drinking; while borewell water is used for other applications like toilets, washing of utensils and other requirements.

The incoming water from the municipal corporation is metered.

The consumption pattern was analyzed by the water bills. The details are as under.

### Municipal Water

There is one municipal water connection for College Campus. The details are as under.

| Period                    | Days | Consumption | Amount | Cost  |
|---------------------------|------|-------------|--------|-------|
|                           |      | KL          | Rs     | Rs/KL |
| <b>Consumer No. 13030</b> |      |             |        |       |
| 14/11/2019 to 14/01/2020  | 61   | 102         | 2713   | 26.60 |
| 14/09/2019 to 14/11/2019  | 61   | 102         | 2713   | 26.60 |
| 14/07/2019 to 14/09/2019  | 62   | 103         | 2740   | 26.60 |
| 14/03/2019 to 14/05/2019  | 61   | 102         | 2713   | 26.60 |
| 14/01/2019 to 14/03/2019  | 59   | 98          | 2372   | 24.20 |

Green and Environment Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

There are about 839 students and staff members. The specific water consumption was computed based on the number of persons and working days. The details are as under.

| Period                    | Days       | Consumption | Specific Consumption |
|---------------------------|------------|-------------|----------------------|
|                           |            | KL          | L/Day/Person         |
| <b>Consumer No. 13030</b> |            |             |                      |
| 14/11/2019 to 14/01/2020  | 61         | 102         | 1.99                 |
| 14/09/2019 to 14/11/2019  | 61         | 102         | 1.99                 |
| 14/07/2019 to 14/09/2019  | 62         | 103         | 1.98                 |
| 14/03/2019 to 14/05/2019  | 61         | 102         | 1.99                 |
| 14/01/2019 to 14/03/2019  | 59         | 98          | 1.98                 |
| <b>Overall</b>            | <b>304</b> | <b>507</b>  | <b>1.99</b>          |

The consumption is generally within the norms.

**Water Purifiers:**

The water purifiers are installed on each floor and bottled water is not used in the campus.

**Rain Water Harvesting:**

The rain water from the terrace area of the college building is being drained in to municipal storm water system through requisite ducts and pipes.

However, considering proximity to the seashore, rain water harvesting may not be practical

There is a provision to recharge the ground water by Water Soaking Pit near garden area.

## VI Waste Generation & Management

### Sewage & Waste Water:

The sewage is fed in to the municipal drainage. This is a common practice and the municipal corporation which charges cess towards the sewage charges.

### Solid Waste:

The organic as well as inorganic waste is segregated in the college premises and disposed of through Municipal system.

## VII Infrastructure & Safety

### Movement on-campus (Distributed / non-distributed leading to crowds)

The premises are provided with multiple staircases with necessary entrances to ensure quick and effective movement normal as well as emergency conditions.

### Parking space:

There is adequate parking space for vehicles/four wheelers. However, almost all the students and many of the faculty members avail public transport system which is very convenient due to proximity to railway station and bus services.

S.I.C.E.S. Degree College of Arts, Science & Commerce

**Fire-fighting & fire escape system:**

There are efficient fire extinguishers in the premises, which are checked & refilled as per the stipulated norms.

The premise is provided with multiple staircases with requisite entrances to ensure quick and effective evacuation in emergency conditions.

**Draining system:**

The drains from the washrooms are connected to the municipal drainage, which is a common practice in the colleges in and around Mumbai.

It is neither feasible nor practical to segregate the drains, install a sewage treatment plant and recycle the treated water for toilet flushing and / or gardening.

**Seepage in the building:**

The premise was visually inspected for seepages.

No seepages were observed in any of the places.

## VIII Green Culture

### Computers/Laptops:

1. The LED / LCD monitors & Laptops has been procured, which are energy efficient.
2. These monitors are not only energy efficient but also generate minimal heat and cut down on electricity consumption.

### Recommendations:

The following steps may be initiated to further enhance efficiency of the systems

1. An efficient power management system may be incorporated to
  - a. Switch off the display if not in use.
  - b. Put the computer in Sleep mode / switching off the machines, if not used for prolonged period.
2. Optimize brightness of the screen.
3. Discourage use of screen savers, which has similar power consumption.

### Paper-less communication:

The major internal as well as external communication is through electronic medium.

### Re-using one sided paper for printing:

It was observed that two side printing / printing on the back side of used paper in more than 80% of the cases.

Energy Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

# I Introduction

Energy Audit was undertaken at SICES Degree College of Arts, Science & Commerce, Jambhul Phata, Ambarnath West, Thane 421 505, during the month of December 2020.

The organization is very keen to optimize energy cost wherever possible and to further optimize energy consumption and identify opportunities for energy saving, M/s Senergy Consultants Pvt Ltd was assigned to carry out Energy Audit of the premises.

This Audit Report presents the analysis of the data collected, observations made at the facility and is governed by the objectives, scope of work, methodology etc. discussed in the ensuing paragraphs.

## Team:

The team members of the audit study.

- Mr. Ravindra Datar
- Mr. Nitesh Kharche

## Acknowledgment:

We wish to express our gratitude towards Dr Harshal Bachhav for having given us the opportunity for conducting the study and the support provided during the study.

We are also thankful to Dr Shrikant Chavan for extending the necessary help and co-operation from their side.

Energy Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

## II Executive Summary

The premises were evaluated against the various criteria laid down by the National Assessment and Accreditation Council (NAAC). The major observations are

1. Electrical System & Bills
  - a. The average cost of the power procured from electricity board is Rs 69.18/- per kWh.
  - b. The power factor was observed to be lower than unity during most of the period, leading to power factor penalty & higher power cost. It is suggested to improve & maintain the power factor at unity to reduce the power costs.
  - c. The contract demand is higher. It is suggested to reduce the contract demand from 82.22 kVA to 25 kVA after consideration of the future expansion, which can reduce the charges of billed demand and electricity duty.
  - d. There is solar energy system installed on college rooftop for power generation.
  
2. Lighting System
  - a. The usage of natural lighting has been maximized.
  - b. Energy efficient light fittings have been installed at all locations.
  - c. The fans with standard efficiency have been provided wherever required. It is suggested to consider possibility of replacing the fans with high efficiency fans with BLDC motors may be ascertained; especially while making new purchases.
  - d. The fans & lights are switched off when not in use.
  
3. Air Conditioning System
  - a. The air conditioners are switched off, when not in use.
  - b. The hall temperature was observed to be 24 to 26 °C; which are standard values.
  - c. The system is properly maintained.

### Potential Saving Area:

Major savings can be achieved by

1. Improving and maintaining power factor at unity.
2. Reducing contract demand from 82.22 KVA to 25 KVA.

### III

## Electrical System & Bill

### Electricity Bill

The electricity for the entire premises is supplied by Maharashtra State Electricity Distribution Co. Ltd. (MSEDCL) connection. The details of energy consumption with costs are as under.

| <b>Consumer Name: M/S South Indian Children's Education Society</b> |        | <b>Consumer No.: 021920006067</b>                  |        |        |         |
|---|--------|--|--------|--------|---------|
| Tariff Category: LT-X A III (VII A III revised Apr'20)              |        | Maharashtra State Electricity Distribution Co. Ltd |        |        |         |
| Meter No.: 055-X007741  |        | Contract Demand: 82.22 KVA                         |        |        |         |
| Description   | Unit   | Nov-19   | Dec-19 | Jan-20 | Average |
| Energy Consumption  | KWH    | 289  | 381    | 252    | 307     |
| Maximum Demand  | KVA    | 15   | 22     | 10     | 16      |
| Billed Demand   | KVA    | 33   | 33     | 33     | 33      |
| Power Factor  |        | 0.130  | 0.150  | 0.130  | 0.137   |
| PF Incentives   | Rs     | 0  | 0      | 0      | 0       |
| PF Penalty  | Rs     | 5115   | 5280   | 5003   | 5133    |
| Demand Penalty  | Rs     | 0  | 0      | 0      | 0       |
| Demand Charges  | Rs     | 10659  | 10659  | 10659  | 10659   |
| Bill  | Rs     | 21011  | 22167  | 20572  | 21260   |
| Cost  | Rs/KWH | 72.81  | 58.18  | 81.63  | 69.18   |

The average cost of the power procured from electricity board is Rs 69.18/ per kWh

### Power Factor:

The higher power factor entails substantial incentive and reduces maximum demand; while penalty is slapped if the power factor drops below 0.95.

The power factor was observed to be around 0.14. It is suggested to maintain unity power factor on continuous basis which can maximize the saving and reduce the power costs.

The incentive is paid on the entire current bill amount including charges for energy, maximum demand, fuel adjustment charges (FAC) and reliability charges but excluding taxes and duties.

The incentive structure for power factor is as under.

| Sr No | Power factor | Power Factor Range | Incentive |
|-------|--------------|--------------------|-----------|
| 1     | 0.96         | 0.955 to 0.964     | 0.5%      |
| 2     | 0.97         | 0.965 to 0.974     | 1.0%      |
| 3     | 0.98         | 0.975 to 0.984     | 1.5%      |
| 4     | 0.99         | 0.985 to 0.994     | 2.5%      |
| 5     | 1.00         | 0.995 to 1.000     | 3.5%      |

*Helping You to Conserve Energy*

Energy Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

The penalty structure for power factor is as under.

| Sr No | Power factor | Power Factor Range | Penalty |
|-------|--------------|--------------------|---------|
| 1     | 0.89         | 0.885 to 0.894     | 1.0%    |
| 2     | 0.88         | 0.875 to 0.884     | 1.5%    |
| 3     | 0.87         | 0.865 to 0.874     | 2.0%    |
| 4     | 0.86         | 0.855 to 0.864     | 2.5%    |
| 5     | 0.85         | 0.845 to 0.854     | 3.0%    |
| 6     | 0.84         | 0.835 to 0.844     | 3.5%    |
| 7     | 0.83         | 0.825 to 0.834     | 4.0%    |
| 8     | 0.82         | 0.815 to 0.824     | 4.5%    |
| 9     | 0.81         | 0.805 to 0.814     | 5.0%    |

**Maximum Demand:**

If recorded demand is more than 65% of Contract demand then billed demand is 65% of recorded demand and If recorded demand is less than 65% of Contract demand then billed demand is 40% of contract demand.

The recorded maximum demand was observed to be below 22 KVA.

**Saving Potential by Reducing Contract Demand from 82.22 KVA to 25 KVA and Maintaining Power Factor at Unity**

| Description      | Unit | Nov-19 | Dec-19 | Jan-20 | Average |
|------------------|------|--------|--------|--------|---------|
| Maximum Demand   | KVA  | 13.1   | 18.7   | 8.7    | 13.5    |
| Billed Demand    | KVA  | 10.0   | 12.2   | 10.0   | 10.7    |
| Demand Charges   | Rs   | 7622   | 6904   | 7622   | 7382    |
| Electricity Duty | Rs   | 1601   | 1450   | 1601   | 1550    |
| PF Penalty       | Rs   | 5115   | 5280   | 5003   | 5133    |
| Total            | Rs   | 9222   | 8354   | 9222   | 8933    |

It is suggested to install automatic power factor correction system (APFC) with minimum rating of individual capacitor for fine controlling of power factor and reduce the contract demand from 82.22 kVA to 25 kVA after consideration of the future expansion, which can reduce the charges of billed demand and electricity duty.

The expected savings shall be around Rs 1.07 Lakh per year.

The investment shall not be more than Rs 50,000/-. The payback period shall be around 5.6 months.

| Boys Toilet        |                | 1  |

The efficacy of LED lamps is 100 to 140 lumen per watt as against 80-90 for TFLs; 60 to 70 for PLs, 10 to 15 for GLS and 50 to 60 for MV lamps. The light emittance of LED is typically 120 to 140° Cone as against 360° for all the other fittings. It is therefore possible to save 30 to 60% energy by replacing various lamps with LED.

Energy Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

### Illumination Level

- The illumination level is generally as per the norms; the illumination level is higher mainly due to usage of day light.

- The use of daylight has been maximized through windows.
- The lamps are strategically located to optimize usage of day light.
- The practice of switching off the lamps in the unoccupied areas has been followed
- It is not economical to provide occupancy sensors for the class rooms due to lesser light fitting and practice of switching off the lamps during unoccupied area.
- There are no major improvements / saving potential in this area.

Energy Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

## V Air Conditioners

Air conditioning system is basically provided to maintain comfortable ambience inside the premises by maintaining the temperature (and relative humidity, at times) at appropriate levels. The performance of human being is optimal at the temperature of  $24 \pm 2$  °C and at relative humidity (RH) of  $60 \pm 5$ %.

The warmer and humid air from the premises is drawn and fed to the Air Conditioning System by a circulating fan. This air is chilled in an evaporator by vaporizing the refrigerant and is distributed throughout the conditioned area. The refrigerant is pressurized by a compressor and subsequently cooled and condensed by an air-cooled condenser. The compressor and condenser are placed in an outdoor unit, located on the external side of the premise. While the circulating fan and evaporator is placed in an indoor unit located inside the premises.

The details are as under.

| Location            | Type  | Capacity | Quantity |
|---------------------|-------|----------|----------|
| Ground Floor Office | Split | 1.5 Ton  | 2        |
| CS Lab              | Split | 1.5 Ton  | 2        |
| IT Lab              | Split | 1.5 Ton  | 2        |
| Auditorium          | Split | 1.5 Ton  | 4        |

### Observations:

- The air conditioners are switched off, when not in use.
- The hall temperature was observed to be 24 to 26 °C; which are standard values.
- The overall condition of indoor as well as outdoor units is satisfactory.

Energy Audit Report  
S.I.C.E.S. Degree College of Arts, Science & Commerce

## VI Renewable Energy

### Solar Photovoltaic:

The organization has installed solar energy system with NET metering as there is enough space available on roof. The total installed capacity of solar energy system is 53 kW.

# Meter 1 - Solar System

# Meter 2 - Solar System

The total solar power generation is 158 kWh for 03<sup>rd</sup> December 2020.

### Solar Thermal:

There is no application of solar thermal system and does not find attractive in this case.

**REPORT ON TREE PLANTATION**

- On 11/08/2015, Tree Plantation Activity was conducted in our college campus.
- 55 volunteers and 20 staff members took part in tree plantation activity from 8:00 am till 9:00 am.
- We had enquired for the saplings in the Panchayat Samiti for the same, as it didn't happen, we had notified the teachers and the students to donate willfully. The donations came up to 100 saplings and they were planted in our college campus itself by the NSS Volunteers.
- Various plants such as tulsi, tulip, neem, money plant, hibiscus, etc. were planted. The main objective of the tree plantation drive was to promote greenery and cleanness in the environment.
- During the tree plantation activity students had maintained discipline and the activity was carried successfully under the guidance of N.S.S.

**Report on**

**“DISTRICT LEVEL ACTIVITY ON ANTI-PLASTIC AWARENESS (STREET  
PLAY AND POSTER MAKING COMPETITION)”**

1. National Service Scheme (NSS) - Thane District: SICES Degree College in collaboration with Ambernath Municipal Corporation, Ambernath had organized Anti-Plastic Awareness Programme on 07 September 2018 at 09:00 am onwards in college premises.
2. At 09:00 am registration of the students for the street play and poster making competition were carried out. Around 433 students had registered for the activity. For this event, 30 colleges from Thane district (N.S.S. Unit) had registered and participated for Anti-Plastic Awareness Programme.
3. For this event we had invited Ambernath Municipal Corporation, Chief Executive Officer Mr. Devidas Pawar. Around 10:00 am inauguration of the event and felicitation of Chief Guest were held. During this period N.S.S volunteers had sang NSS Geet & University Song as a welcome gesture to the Chief Guest and students.
4. After felicitation; our Chief Guest Mr. Devidas Pawar had addressed the students and delivered the speech on importance of anti-plastic awareness to the society. Through their speech they had out bright the implication of plastic in our environment.
5. Other of the dignitaries had also talked about the topic. With all being the programme had started with the street play in the college premises and poster making competition held on 2nd and 3rd floor passage areas.
6. For street play we had received 30 participants from different colleges and 3 circles were made for them. We invited our Degree college staff as a Judge (06 in numbers) for street play act. Simultaneously poster making competitions were undergoing Approximately 150 students had participated for this.

7. Towards the end of the programme we had the results for street play and poster making competition.

For street play: 1st prize secured by Joshi- Bedekar College Thane followed then by M.S. College Mumbra and S.I.A. College Dombivii

8. In Poster making competition, : 1<sup>st</sup> prize secured by Miss. Qureshi Sania from M.K. College.

2<sup>nd</sup> prize to Master Abhijet Jadhav from C.H.M. College.

3<sup>rd</sup> prize was shared by Miss. Ruchika Gaikwad from B.K. Birla College and Miss. Manpreet Kaur from R.K.T. College

9. With the permission from management authorities, enormous efforts were taken altogether by NSS district co-coordinator Mr. Prashant Savdekar , Mr. SantoshBhakta (Area coordinator Kalyan- Dombivli region). Mr. Ninand Kasle (Area co-ordinator Ulhasnagar region) and Dr. Yogesh Shelar (SICES Degree college P.O. and Area co-ordinator Bhiwandi region) along with our Incharge Principal Dr.Harshal Bacchav and N.S.S. committee members and NSS volunteers.

10. Moreover Ambernath Municipal Corporation had provided the refreshment of 600 boxes to the participants.

11. Concluding session was done by vote of thanks by Dr. Yogesh Shelar (SICES Degree College P.O. and Area co-ordinator Bhiwandi region).

12. At the end of the programme dispersal meeting were conducted by Dr. Yogesh Shelar addressing the staffs and feedback and suggestion about the programme was welcomed.

13. Interestingly article about this programme was published in Maharashtra Times newspaper dated 13 September 2018 by Joshi.

## **Eco-Friendly Ganesh-Utsav Celebration**

Date : 06/02/2017

### **Report : Eco-Friendly Ganesh-Utsav Celebration**

The Ecofriendly Ganesh-Utsav Celebration have started from 05<sup>th</sup> Sep. 2016 to 09<sup>th</sup> Sep. 2016 in the college premises for 5 days and also at the Adopted village the Savrewadi from 05<sup>th</sup> Sep. 2016 to 07<sup>th</sup> Sep. 2016 for 1.5 days. Details of the Ecofriendly Ganesh-Utsav Celebration at the two places are given below separately :

#### **College Premises : Eco-Friendly Ganesh-Utsav**

- The Ecofriendly Ganeshmurti was set by the hands of our Physical Director Respected Ujjain Lokhande Sir.
- The Ganesh Murti was Set which was made up of soil (Called Shadu)
- No Plastic was used for the decoration instead the backside of Lord Ganesh was decorated with the PEACOCK Feathers available Naturally. Only the re-usable LED were arranged around the Lord Ganesh Murti.
- 40 Students were Present for the Set up of Ecofriendly Ganesh Utsav
- Hon'ble President and Hon'ble Joint Secretary of the SICES Society were present on the first day of Eco-Friendly Ganesh-Utsav celebration. They had a interaction with NSS Volunteers and advised to work for the society and the needy people in the society they promised to give the every help needed to the NSS Volunteers
- College Campus Cleanliness Drive was carried out by the students during the Ganesh Utsav Celebration Days
- Trees Planted on 01<sup>st</sup> July 2016 were Nourished with soil, water setting pits near plants, sticks supports to the planted trees by the NSS Volunteers during the Ganesh Utsav Celebration Days
- College Teaching Staff was on Holidays but the Non Teaching Staff Visited and took the Darshan of the Lord Ganesh Murti.
- The Ecofriendly Ganesh Visarjan was done on the fifth Day with a small Visarjan Programme.
- After Ganesh Visarjan the Nirmalya collected during 15 days was buried underground for its decomposting process naturally.

## Adopted Village Savrewadi : Eco-Friendly Ganesh-Utsav

- The Ecofriendly Ganeshmurti was set by the hands of the Sarpanch of savrewadi at the Zilla parishad highschool. For the Ganesh murti set up day the NSS PO, and Fifteen NSS Volunteers were present. The Villagers by their own will gave the amount of Rs. 500 as a contribution for the Ganesh Utsav Celebration by the NSS Volunteers at their village.
- For the Ganesh Murti Set up one of the NSS Volunter Named Atharv Prabhune from SYBSc Worked as the Pujari and prayed the holy mantras for setting the Ganesh Murti
- NSS Volunteers distributed the work of, to be present near the Ganesh Murti continuously for 2 days alternately
- During Free time the NSS Volunteers Taught the lessons of texts to the School students, Explained them YOGA, Importance of Cleanliness to the small small childrens of the school where the Lord Ganesh Murti was Set etc.
- Health Check-Up of the Childrens was carried out with the Help of Badlapur Civil Hospital Doctors for the Childrens and Villagers at Savrewadi during the Ecofriendly Ganes Festival Celebration
- The Ecofriendly Ganesh Visarjan was done on the Second Day with a small Visarjan Programme
- After Ganesh Visarjan the Nirmalya collected during the 1.5 days was buried underground for its decomposting process naturally
