The e-Governance Policy is implemented from A.Y. 2015-16

E-Governance policy

Object:

1. To Implement E-governance in the institution for smooth functioning
2. To increase efficiency through this implementation in various functioning
3. Facilitating online communication between various entities of the institution

Policy:

1. In order to provide simple and more efficient system of e-governance within the institution.
2. The institution has already started with e-governance in some aspects of functioning like library, admission, Examination. We are resolving implementation of e-governance in some more areas and with this aim we have drafted framework of this policy.

1. **Website:** The website should act as a college mirror that provides all the information and all the activities, important notifications, etc. They should be made easily accessible to outsiders. For this purpose, a separate website committee has organized itself, liaising with a service provider / web designer who can be appointed by the SICE Society under the direction of the head.

2. **Student Admission:** The College has implemented all admissions in online mode from Academic Year 2020-21 onwards.

3. **Accounts:** To make it easier to keep accounts, the institute is already using Tally software.

4. **Library:** The library has its own unique webpage in the college website for organized work. The library currently uses SOUL 2.0 & N-LIST software for its internal functionality and the use of e-resources. Training of staff and students to use e-learning resources should be provided for the use of online resources. And the barcode system has started in the OPAC system so that others can use library resources more effectively. We are planning to include additional e-learning resources for the benefit of teachers and students.

5. **Administration:** To provide easy and affordable hassle-free process, major university administrative work to be managed with ICT-based technology. Students should also be

able to access advanced services such as transfer certificates, bonafide certificates, etc. in online mode.

6. **Examination:** At the behest of the University of Mumbai, it is mandatory to administer the exams online. Completion of examination forms, renewal forms, duplicate forms, receipt of hall tickets, revaluation of examination papers, upload of marks, etc. everything should be done online. Confidentiality needs to be maintained while handling online examination work. The Chairperson of the College Examination (Examination Coordinator) oversees the entire examination process under the direction of the College Principal. The College conducted online tests using the Acadmin software in the COVID 19 epidemic.
